Prompts de imagens — Gemmo Combo (mapa, fases, banners, palácio, ícone)

Estilo base (cole no início de TODOS os prompts):

```
Pixar-style 3D render, soft studio lighting, glossy translucent crystals, rich saturated colors, shallow depth of field, cute fantasy gem-world, mobile game art, high detail, no text, no letters, no numbers, no UI, no watermark, no characters unless stated.
```

A) MAPA — 6 imagens verticais (9:16, 1080x1920), 3 temas × 2 trechos

Regras comuns: vista de cima levemente inclinada (3/4), um caminho de pedra clara com borda de cristal turquesa serpenteando de baixo para cima em S, ocupando o centro; o caminho fica LIVRE (sem objetos em cima) para eu colocar os botões; o centro-baixo e centro-topo do caminho devem ficar exatamente no meio da imagem (x ≈ 50%) para emendar com a imagem seguinte; bordas laterais com cenário (cristais, plantas, ruínas). Sem texto, sem personagem.
